# WE'LL TAKE YOU ON YOUR NEXT SKIING ADVENTURE

We were raised on the ski slopes of Iceland and after we finished our careers in alpine racing which took us both to the World Cup and The Winter Olympics we turned our passion to ski guiding and backcountry skiing. We were lucky enough to have literally in our backyard a vast and amazing terrain with thousands of slopes waiting for a first decent. So we put together a powerful team of ski guides and made our base in the beautiful Siglufjörður in the North of Iceland.

Tröllaskagi (the Troll peninsula) our main skiing area has countless peaks and the rare possibility to ski from a summit directly down to the ocean. We can take you to slopes that fit every type of skiing, from the steep and gnarly to the wide and gentle.

We're truly proud to welcome you to explore our beautiful country and go on a unique skiing adventure with the Vikings.

In terms of heliskiing, there are few places in the world with as many possibilities as the Troll peninsula. The area is vast and largely unexplored. Fantastic slopes in a unique scenery.

During winter you can ski until it is dark and watch the majestic northern lights dance in the sky. In the springtime, there is nothing like skiing down slopes in between the towering peaks, ending the ride where the shoreline meets the North Atlantic.

# A TYPICAL TOUR WITH VIKING HELISKIING

## THE DAY OF ARRIVAL

Guests will be picked up at Akureyri airport and driven to our Luxury hotel in Siglufjordur. Guests can also be picked up in Akureyri by our helicopter upon request. When check-in at our Lodge is completed our guests will have a short meeting with other skiers and the Viking Heliskiing guides. After the meeting and a little chat dinner is served in the hotel. In the evening guests can relax and enjoy a drink and some snacks while looking at the program for the coming tour.

## THE DAYS TO COME

Ready for the thrill of your life? You better be – you are staying with the Vikings and you are about to experience an adventure of a lifetime. On the schedule is heliskiing - adventure – exploring – and unique scenery, spectacular view and some unforgettable moments.

After breakfast there will be a short briefing regarding avalanche safety and beacon training, helicopter safety, and ski-/snowboard equipment adjustment, just so everyone will be ready.

Then the fun part starts; heliskiing/helismountainboarding and exploring new lines and enjoying the breathtaking view while skiing down to the Arctic Ocean. Terrain selection is determined by the guides and is based on avalanche assessment, weather and the skiing ability of the group. Your safety is our number one priority.

After detaching the skis each day you can enjoy some of the adventure packages we have to offer, e.g. whale watching, sea angling or horseback riding on the great Icelandic horse. It is also possible to bathe in Iceland´s nicest swimming pool in an unforgettable environment. The other option is just to sit down at the Bar to relax and unwind with a glass of wine or a pint of Icelandic beer.

Later in the evening the group will have dinner together at the Viking Heliskiing Lodge and discuss the great runs and adventures of the day.

## DEPARTURE DAY

This is the last day of the tour. After breakfast we will head out to the mountains to enjoy our last day. On the schedule today is exploring more new lines and the breathtaking view. When we are finished skiing, it's time to pack and jump in the hot tub before enjoying the final drink and saying goodbye to your guides and your new friends.

Guests will be driven back to Akureyri where they can either go straight to the airport or spend some time in Akureyri. Upon request we can also use our helicopter to fly you back to Akureyri.

# #VIKINGHELISKIING

**#VIKINGHELISKIING**

*Gorgeous surrounding, excellent accommodation,  
fantastic people and really good skiing;  
a really unique experience.*

# HELICOPTERS AND PILOTS

The fleet is made up of the most modern and meticulously maintained helicopters on the market and consist of Ecureuil Astar AS350B2 & AS-350B3 (A-Star's). The pilots are trained to the highest standards, experienced, multi-lingual and friendly with a vast knowledge of Iceland's spectacular nature. The pilots are specialized in flying in the arctic environment, especially in the Troll Peninsula area. The safety and comfort of our customers is always their main priority as well as providing them with an enjoyable experience they will never forget.

# WEATHER IN ICELAND

From November to February we normally get heavy snow storms in Iceland. We start our season in March because then the weather tends to be quite stable in terms of wind and precipitation. The Icelandic winter is relatively mild for its latitude. The average temperature in our heliskiing area is normally from 0 to -10 degrees Celcius up in the mountains.

In Iceland the weather can change quite fast. For example if the weather is bad in the morning then it is quite likely that we can start skiing in the afternoon and easily get a full heliskiing day. Because of our location we have the advantage of continuous daylight since the sun is not setting until around midnight.

# SNOW AND SAFETY

Each morning and evening our guides meet to evaluate and discuss the weather, snow stability and terrain based on field observations and data supplied by remote weather stations and the Icelandic Avalanche forecasters. Our guides are constantly practicing snow and avalanche management as they analyze the changes in the conditions and make guiding decisions accordingly.

## MORE ADVENTURES

Viking Heliskiing offers special adventure tours to some of Iceland's most fascinating destinations or other exciting activities. Our guests have the opportunity to explore Iceland in a different way. We offer you to take part in all of our adventure packages that consist for example of whale watching, sea angling, horseback riding or even a trip to the great nature baths in Mývatn or the famous Grettislaug natural pool.

# FREQUENTLY ASKED QUESTIONS

## How many people are in each group?

*In a Private Tour we operate groups of 1-4 people with exclusive use of the helicopter. IN Viking Classic Tours, 2-3 groups of 4 people share the helicopter.*

## How many runs can I do in one day?

*That all depends on how much vertical feet the group wants to spend in the day. When the conditions are good we normally do 10-11 runs per group each day. But of course the sky is the limit and we can ski all day long.*

## How are the snow conditions?

*Prepare for a variety of snow conditions. You could at any time be skiing fresh powder, the famous Icelandic spring corn snow or fresh and light backcountry snow.*

## What kind of helicopter do you use?

*Our fleet is made up of the most modern and meticulously maintained helicopters on the market. They consist of both the Ecureuil Astar AS350B2 and the AS-350B3 (A-Star's).*

## What about the avalanche danger?

*There is always some avalanche danger in the mountains. In backcountry skiing, the most important rule is to respect nature and adapt its conditions. This is why we use only expert professional guides who constantly analyze the snowpack to make decisions that ensure the safety of our guests. We have never been in an avalanche accident with our guests and we are proud of that!*

## Do you provide avalanche safety gear?

*Yes we do. We provide each guest with a high quality transceiver, shovel, probe and an avalanche airbag. Your safety and comfort is our primary concern.*

## How good do I have to be to go Heliskiing?

*It's often a great misconception that skiers have to be experts to go heliskiing. Truth be told, we have all kinds of terrain that will fit most types of skiers from relatively flat and easy for the moderate level skiers, all the way to a more challenging terrain for the advanced skiers.*

# FREQUENTLY ASKED QUESTIONS

## How old do you have to be to go Heliskiing?

*All participants under 18 years must have written documents from parents or a legal guardian that allow them to attend a booked tour and that their participation is in accordance with VH terms and conditions.*

## Do I bring my own ski/snowboard gear?

*Guests can of course bring their own gear but we have a wide range of K2 skis and K2 snowboards and poles that we have available for our guests to use. Guests have to bring their own boots and we recommend that the boots have been used before arrival to avoid foot pain.*

## What about snowboarders?

*Of course we welcome snowboarders like we welcome skiers.*

## What do we do if the weather is bad?

*If it is unsafe to fly the helicopter, we have a variety of exciting activities that we can arrange depending on what you are looking for. From whale watching, to sea angling, to riding an iconic Icelandic horse to swimming in Iceland natural hot springs. No matter what, you will be surrounded by Iceland's natural wonders and will never be short on things to do or see.*

## Do you have a selections of good wines?

*Yes we do!*

Unlike alpine ski binding systems, snowboard and some telemark bootbinding systems are not designed or intended to increase and may increase under normal circumstances. In consideration of the Releasees allowing me to participate in wilderness activities, I hereby agree as follows:

- TO WAIVE ANY AND ALL CLAIMS THAT I HAVE OR MAY IN THE FUTURE HAVE AGAINST THE RELEASEES AND TO RELEASE THE RELEASEES, THEIR GUIDES, OFFICERS, AGENTS AND OTHER DIRECTORS FROM ANY AND ALL LIABILITY FOR ANY LOSS, DAMAGE, INJURY OR DEATH, INCLUDING DEATH THAT I MAY SUFFER AS A RESULT OF MY PARTICIPATION IN WILDERNESS ACTIVITIES, INCLUDING ANY CAUSE WHATSOEVER, INCLUDING NEGLIGENCE, BREACH OF CONTRACT, OR BREACH OF ANY STATUTORY OR OTHER DUTY OF CARE, INCLUDING ANY DUTY OF CARE OWED UNDER THE OCCUPATIONAL LIABILITY ACT, R.S.G. 1996, § 307 ON THE PART OF THE RELEASEES, UNLESS AND THAT NEGLIGENCE INCLUDES FAILING ON THE PART OF THE RELEASEES TO TAKE REASONABLE STEPS TO SAFEGUARD OR PROTECT ME FROM THE RISKS, DANGERS AND HAZARDS OF WILDERNESS ACTIVITIES INTENDED TO AVOID.**
